## Experience

**Nitro Química** | Jul/2023 - Present

*São Paulo, Brazil*

Digital Analyst, Junior Digital Analyst

- Upgrade internal spreadsheet tooling (crucial in sales that amounted to ~**R\$20MM** in 2023) into full-fledged web applications, enabling better access control, metrics and improved feature set.
- Incremental automation and streamlining of the onboarding process for new sales representatives, increasing visibility of the process company-wide.

**Source.ag** | Aug/2022 - Feb/2023

*Amsterdam, Netherlands*

Implementation Analyst

- Transform onboarding playbook into robust CLI process, decreasing errors and time to completion.
- Made possible for non-technical teams to do day-to-day database-related updates through a web interface (Retool).

**BTG Pactual Digital** | Jun/2021 - Jan/2022

*São Paulo, Brazil*

Assistant Analyst, Intern Developer

- Development of new pages and better views/filters for backoffice web application.
- Maintenance of cloud endpoints, better logging and new functionalities.

## Education

**Utrecht University**

*Utrecht, Netherlands*

Masters, Artificial Intelligence | Feb/2022 - Incomplete

**Escola Superior de Propaganda e Marketing**

*São Paulo, Brazil*

Bachelors, Information Systems | Graduated Dec/2021

## Skills

- **Full-Stack:** 4+ years of experience as a full-stack dev, having worked with Typescript, React, Angular, Python, and other languages.
- **DB & Infrastructure:** Very comfortable working with databases/SQL. Keen eye for proper schemas that take into account future growth.
- **Problem-Solving & Adaptability:** Quickly adapt to new technologies and improve team workflows with automation. Not afraid to get into the terminal to figure things out.
- **Languages:** English (Fluent); Portuguese (Native)
